

THE THREE ROUNDS OF LEX QUEST 2025

Explore the three thrilling rounds of Lex Quest 2025 and see how the best legal minds compete.

1st Round – The Aptitude Arena

Where Potential Takes the First Leap!

The First Round of LexQuest serves a dual purpose. On one hand, it acts as the screening test for the prestigious Grand LexQuest Mega Competition. On the other, it provides a comprehensive aptitude analysis for participating students.

Our carefully designed screening paper aims to assess three fundamental aptitude verticals that form the core of every competitive examination:

- Verbal Ability
- Reasoning Ability
- Quantitative Ability

Each section is curated to evaluate students' comprehension, logical thought process, and numerical aptitude — all at an elementary yet insightful level, ensuring accessibility for all while identifying true potential.

Students securing top scores in this round will be rewarded with exciting cash prizes. Additionally, all high scorers will be eligible for exclusive scholarships under Abhyaas Edu Technologies for various academic and skill-based courses.

Furthermore, free career counselling sessions will be provided to all participants, guiding them towards informed and confident career choices.

Exam Duration: 45 minutes

Sections:

- Verbal Ability
- Logical Reasoning
- Quantitative Reasoning

2nd Round – The School Showdown

Where Teams Rise, and Leaders Emerge.

The Second Round transforms LexQuest into a school-level competition. The top three performers from each school, based on their Round 1 scores, will move forward to represent their institution.

With participation expected from 40 to 75 schools, each school's team of three will take part in another mega screening test lasting 45 minutes. This round emphasizes Logical Reasoning and Legal Reasoning, aiming to test students' analytical, interpretive, and reasoning abilities in more depth.

At the end of this round, the individual scores of the three representing students will be combined to form the school's cumulative total.

The Top 5 schools with the highest cumulative scores will advance to the Final Mega LexQuest Contest.

3rd Round – The Grand Moot

Where Sharp Minds Become Future Lawyers.

The Third and Final Round of LexQuest brings participants face-to-face with a Moot Court-style Mega Contest — a true test of intellect, reasoning, and articulation.

In this round, teams will be evaluated on their ability to:

- Present arguments both *for* and *against* a given hypothetical legal caselet, and
- Deliver a judgment through the third team member, who will act as the Judge.

This round simulates a real-world legal proceeding, encouraging students to think critically, communicate persuasively, and reason like future lawyers and judges.

Before this round commences, a free preparatory workshop will be conducted to guide all participants on how to:

- Analyze a case from different perspectives
- Prepare and present arguments effectively
- Understand their roles as Petitioner (Prosecution), Respondent (Defence), and Judge

This immersive experience not only enhances students' reasoning and communication skills but also exposes them to the dynamics of law, logic, and leadership.
